Challenger STS-51L 25th Anniversary

On January 28, 1986, seven heroes were lost on a mission to educate and inspire. Though the Challenger crew perished, their mission continues.

The Challenger Learning Center of Tallahassee (CLC) is part of a network of Centers under the Challenger Center for Space Science Education umbrella, which was created as a living memorial to the Challenger astronauts by their families and friends to continue the lost crew's dream of inspiring, exploring and learning. The CLC is remembering the Challenger crew through a series of events:
