

[Document Title]

[Document subtitle]

[Organization Name]

Tracy Haley

Magnet Science Research Book Project

“Three Times Lucky” by Sheila Turnage or “Confessions of a Murder Suspect” by James Patterson

(CHOOSE ONE.)

On a file folder (color of your choice) write the book title and author at the top of the folder.

Write your name as the investigator example: Investigator Rick Hanson

Include on the front cover of your folder “The Line Up”, a drawing, photograph, or magazine clipping of what you think the major characters look like, using the descriptions in the book as your guideline.

- Include each character’s name under their picture.
- Don’t forget the suspect(s).

On the inside of the folder construct a timeline of the major events in the story. You may include a brief description of an incident(s) that stands out to you.

- Remember that the timeline must fit inside the folder, so only major events :)

Things to include:

- steps the characters followed to solve the crime
- description of a special scene
- evidence found
- suspect(s)
- anything you find interesting.
