Your child will enjoy being a Cub Scout!

- Cub Scouting is a fun program for youth in grades K-5 that is
 - designed to develop character, sense of responsibility and leadership.
- Scouting has a very flexible schedule so kids can participate in sports or other activities and be Scouts too.
- Meetings are typically once a week, they last about an hour, and the meeting location is usually near your child's school.
- Activities such as camping or field trips take place a few of times a year, and they occur during the weekends.
 - Scouting is an inexpensive program for your child.
