

WHO WE PLAY FOR

Sudden Cardiac Arrest (SCA) is the leading cause of death in young athletes. The real tragedy is most of these deaths can be prevented. WWPF will work with Leon County Schools to bring electrocardiogram (ECG) heart screenings to all sixth graders as a part of the Sixth Grade Health Assessment.

Together, we will change the paradigm and the result will be a generation of students who get to grow up.

Electrocardiogram (ECG) Screenings

Quick, Effective & Affordable

5 MINUTES

Amount of time it takes to screen 1 student athlete.

95% vs 4%

ECGs are more effective in identifying those at risk than physical evaluation alone.

~2%

False positive rate since the **implementation of the International Criteria for ECG Interpretation in Athletes.**

\$20 vs ~\$150

Cost to screen with **Who We Play For** compared to typical cost.

3%

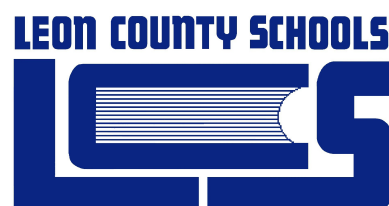

Number of screenings that are flagged as abnormal.

How It Works

- 1 Schedule a screening through our website at whoweplayfor.org
- 2 WWPF and Leon County schools perform screenings.
- 3 ECGs are interpreted by pediatric cardiologists proficient in the interpretation of ECGs in children. Results are delivered to students's parent or guardian,
- 4 and are connected with appropriate follow-up care.
