## 6TH GRADE

Mrs. Cameron - Science- In 6th grade Science, we have concluded the Rock Cycle. Our next topic to tackle will be Earth's Internal Structure. The focus will be on evidence, as evidence is an integral part of the scientific process. Students will be exercising their analytical skills through graphing, discussion, and writing. Students will be offered an opportunity to build a model of the earth to demonstrate their knowledge on earth's internal structure. Be on the lookout for the project guidelines.

Ms. Kirkendoll - Language arts - In quarter three we will be concentrating on argumentative writing. We will talk about claims, counterclaims, and what constitutes good evidence and elaboration. In addition, this is the nine weeks that we start our literature circles. I have chosen two books that explore the idea of having compassion for people. I think this is so important in the world we live in, and in both novels the protagonist struggles with a disability. These novels can be previewed on my announcements page on Canvas. We will continue to also work in our textbook, and complete a project/book report by the end of the nine weeks. Our next stop will be to write some original poetry.

**BIG WELCOME TO:  
MS. JONES AND  
MS. ABRAHAM**

**WHO WILL BE JOINING MS.  
KIRKENDOLL AND MS.  
THOMPSON'S CLASSES  
THIS SEMESTER AS  
INTERNS**

## 7TH GRADE

Ms. Thompson- Civics - History Fair is now done and those who will be moving on to the district fair have been announced. Everyone did a fantastic job. We will be working through State and Local government this month before moving in to Foreign Policy. Dont forget to be working on your community service hours!

Ms. Camen - Language Arts -This month your students will be finishing up our novel study of "Tangerine." We'll wrap up the study with an informative style essay to help prepare for the practice writing test coming up. We are halfway done with our Latin Word Chunk exploration and your students seem to really enjoy practicing with each set of prefixes

Mr. Fletcher - Physical Science -The month of February will have Mr. Fletcher's Pre-IB classes learning about matter and beginning a unit on chemistry. We will conduct a density lab, as well as a fun chemistry lab to show the difference between physical and chemical change. On February 10th, Mr. Fletcher will be bringing a group of students to compete in the district science fair. This will be an exciting month in Physical Science

## 8TH GRADE

Ms. Adams -Language Arts- This month, all students will be taking the schoolwide FAST Writing Practice test on Wednesday, 2/8. They will take the test in their testing group and submit their essay into Canvas. Please make sure they get a full night of rest before this test. It gives us great insight into how they do with an essay under testing circumstances. If your child is choosing to participate in the 8th grade LCS Best & Brightest Essay Contest, that needs to be submitted to me with the application by Friday, 2/17. All of the information for this is found from my Canvas page.t work
