

Free ESOL Tutoring

# Elevate Your English Skills

The FSU School of Teacher Education is providing free after-school ESOL tutoring services for K-12 students. These services include homework assistance and conversation practice, and more. Tutoring services and conversation partners are also available for adult English language learners.

Our tutors are education majors at FSU who are learning to work with students who are non-native English speakers. Private tutoring sessions are secure and available seven days a week, both virtually and in-person.
