MATH STARS

COMPETITION & COMMUNITY EVENT

SCHEDULE OF EVENTS

Math Stars is back and we are so excited to have you with us. This year, our event is better than ever! We've brought several local companies, organizations, representatives from our universities and more to our campus so that you can see all that Tallahassee has to offer.

I personally invite you to mingle and ask questions while your student is competing so that you can see what opportunities they might have outside of the classroom. Then, when they are done with their events, take them around to enjoy some of the demonstrations and hands on activities available.

While you are here, take a tour of our campus, ask any questions you may have and grab a bite to eat. Lunch is included in your student's registration but you will be responsible for your own lunch and the lunch of any additional family member not competing.

I cannot wait to see everyone's smiling faces. This is going to be great!

Sincerely, Mr. Baysal
